

MAX POWERLITE HN50

16° High pressure coilnailer

MAX *PowerLite*TM

Extremely small and light weighted coil nailer for 32-50 mm plastic- or wire collated nails. HN50 has low recoil and other features as depth of drive, side exhaust, comfort grip and belthook. With the patentet anti-double shot mecanism you can fire single- or sequence shots direct by the trigger which also can be locked for highest level of security. HN50 has a large loading capacity and the magazine can be adjusted for different nail lengths.
